The diagram illustrates the layout of the Hometown Cover Template. It features three nested rectangular regions: an innermost green border representing the 'Safe Area', a middle red border representing the 'Trim' area, and an outermost yellow border representing the 'Bleed' area. Three horizontal lines with labels are positioned on the left side of the page: a green line for 'Safe Area', a red line for 'Trim', and a yellow line for 'Bleed'. The text specifications at the top define the dimensions for each of these regions.

Safe Area

Trim
